

Hi! I'm Becca, editor, writer, and founder of R. B. Wolf Editing.

I'm going to share a sneak peek with you into "**5K in 5 Days**: A Mini-Series to Build Your Weekly Writing Habit." In this series I show you how you can consistently write 5,000 words each week.

I know what you're thinking. There's no time in your day, you're too tired by the time you're done with work or kids, or your schedule is just too inconsistent.

But what if I told you that in only **32 minutes each day**, 5 days out of the week, you can hit that 5,000 word count goal?

And if you still don't believe me, this is exactly what I do when I'm writing a new story.

Here's what you get with **5K in 5 Days**:

Video 1: Idea Stacking & Idea Stretching. This is where you'll learn how to pull together all your different story ideas, prioritize them, and put some together to create a single cohesive story idea

Video 2: Scene Mapping. Here I'll show you how to put together the basic bones, and structure of your story

Video 3: The 7-Minute Speed-Write. This is where I'll share how I start every writing session, which is the most important part to hitting that ~1,000 word count daily

Video 4: Stick to the Plan. In this video we talk about how to keep your editing brain from taking you off track in your writing.

Video 5: Just Keep Writing. This is where we'll be talking about fitting those 32 minutes a day, 5 days a week, into your unique schedule, whatever it might be.

Also, in this series you'll get a **Bonus Video**, called **The 10 Day Break Up**. This video is about giving yourself permission to take a break from your novel when you need to recharge, & how to get back into the writing groove when it's over.

As some additional bonuses, you'll get a writing tracker PDF which is incredibly helpful in keeping you motivated and moving forward in your novel.

You will also get access to my World Building Guide and Worksheet included for FREE

And I've put together some add-on pdfs as a final FREE bonus, that go along with the videos in this series; the 5K in 5 Days Workbook.

Wherever you're at in your writing journey, whether you're just starting out, or you're in the messy middle of your novel, this mini-series is for you.

The videos are short & bite-sized so that they're not overwhelming, and they really can help you start moving towards your author goals right away.
